PERSONAL & INTIMATE CARE POLICY

1. INTRODUCTION

Movilla High School is committed to the provision of care that is high quality and meets the individual needs of children and young people and embraces the United Nations Convention on the Rights of the Child.

This policy provides the outline for the development of guidance and procedure with regard to personal and intimate care. This policy should be read in conjunction with the Safeguarding & Child Protection Policy and advice on Managing Medicines.

This policy has been developed to safeguard children and staff. It applies to all staff undertaking personal and intimate care tasks with children and young people.

Movilla High School is committed to providing personal and intimate care where it has been recognised as an assessed need and indicated in a personal and intimate care plan. We aim to ensure that:

- Every child and young person has the right to feel safe and secure
- Every child and young person has the right to be treated as an individual
- Every child and young person has the right to remain healthy
- Every child and young person has the right to privacy, dignity and a professional approach from all staff when meeting his or her needs.
- Every child and young person has the right to information, in a format that is understandable, and support relevant to their needs, which will enable him or her to make informed and appropriate choices.
- Every child and young person has the right to be accepted for who they are , which is inclusive of their age, gender, ability, race, culture, religion or belief and sexual orientation
- Every child and young person has the right to information and procedure, in a format that is understandable, for any complaint or queries he or she may have regarding their personal and intimate care.

Every child should be encouraged to care for themselves as much as they are able.

2. AIMS

The aims of this policy are:

- To ensure that children and young people are consulted and encouraged to participate in decisions about their personal and intimate care. Particular attention must be given to those children and young people who have disabilities/conditions who may need additional support to be able to do this.
- To safeguard the rights of children and young people, and staff who are involved in their personal and intimate care.
- To ensure that school guidance is developed. This must inform all staff, whose role includes personal and intimate care, of good working practice and procedures.
- To ensure there is a system for producing Intimate Care Plans for children and young people who require personal and intimate care.
- To ensure that all staff who are involved in personal and intimate care have access to training enabling them to implement the child or young person's intimate care plan and all relevant procedures.
- To remove barriers to learning and participation, protect from discrimination and ensure inclusion for all children and young people.
- To ensure the continuity of care through the sharing of information between parents/carers/legal guardian/involved professionals.

3. DEFINITIONS OF PERSONAL AND INTIMATE CARE

Personal Care is defined as those tasks which involve touching, which is more socially acceptable, as it is non-personal and intimate and usually has the function of helping with personal presentation and enhance social functioning. This includes shaving, skin care, applying external medication, feeding, administering oral medication, hair care, brushing teeth, applying deodorant, dressing and undressing, (clothing), washing non-personal body parts, prompting to go to the toilet.

Intimate Care is defined as any activity required to meet the personal care needs of each individual child. Parents have a responsibility to advise staff of the intimate care needs of their child, and staff have a responsibility to work in partnership with parents and children.

4. EQUALITY AND DIVERSITY

Children and young people with impaired personal development have the same rights of access to services as other children and young people and are protected from discrimination under the Disability Discrimination Act (DDA) 1995.

5. PROTECTION OF CHILDREN YOUNG PEOPLE AND STAFF

Movilla High School aims to ensure that all children and young people's personal and intimate care needs are met.

- Adults with parental responsibility have the prime responsibility for their child's health and must provide all schools with information about their child or young person's intimate care needs. This information will be sought through an assessment of the child or young person's needs and subsequent personal and intimate care plans will be drawn up with review dates.
- The personal and intimate care plan must be written in consultation with those with parental responsibility, children and young people and appropriate consent given for procedures within it. Every effort will be made to assist those children and young people who are not able to communicate easily to participate in their care planning.
- All staff undertaking the intimate care of children should be familiar with and understand the Intimate Care Policy and Guidelines within the school.
- Where a personal and intimate care plan does **not** exist, the initial service identifying the need must ensure that an assessment and plan are completed prior to accessing the school, or where the child or young person's needs or circumstances change. The School will be involved at this stage to ensure ensure clarity about staff roles and responsibilities.
- Young people over the age of 16 who are living independently of their parents should provide information about their personal and intimate care needs. Those young people with a disability/condition must be provided with additional support to be able do this where possible.
- Those with parental responsibility must be consulted and their views respected in terms of the personal and intimate care provided for their child or young person unless the young person is living independently. Procedures must be discussed with the family to ensure consistency of care and support to encourage the development of personal and intimate care skills for their child. Scheduled reviews of Intimate Care Plans will take place annually.

- There is no legal or contractual duty that requires all staff to undertake personal and intimate care procedures. However this may already be a specific requirement in an individual job description or staff may formally elect to support children and young people in this way. In these circumstances staff will be informed of the specific types of personal and intimate care that they will be required to carry out and be appropriately trained.
- Relevant staff will have access to guidance and ongoing training that supports good working practice which complies with health and safety legislation. Staff will have access to a set of procedures detailing individual personal and intimate care tasks including how to manage children and young people who refuse to comply with previously agreed interventions.
- All staff working with children and young people at Movilla High School will have Safeguarding/Child Protection Training, and have been issued with the this policy and the Code of Conduct.
- Each child and young person's right to privacy must be respected. Careful consideration must be given to each child and young person's. Under normal circumstances, one child or young person will be cared for by one adult, unless there is a sound reason for having two or more adults present. If this is the case, the reasons must be clearly documented, and discussed with the young person and those with parental responsibility. (The United Nations Convention on the Rights of the Child: Article 12 Children have the right to say what they think should happen, when adults are making decisions that affect them, and have their opinions taken into account).
- The number of staff required will be indicated in the child or young person's intimate care plan. The number of staff may also be influenced by the preference of the child or young person, or specified in a Moving and Handling or behavioural risk assessment.

6. MONITOR AND REVIEW

Movilla High School will be responsible for promotion of this policy across the school. Any required changes to this policy due to changes in legislation will be made in partnership with the Board of Governors who will ratify any changes , reviews or revisions.

INTIMATE CARE GUIDELINES (where an Intimate Care Plan is not in operation)

FIRST AID

School procedures for the Administering of First Aid are contained in Appendix 8 of the Safeguarding and Child Protection Policy.

WETTING/SOILING

In the event of an accident involving wetting or soiling:

- the pupil will be reassured and comforted to alleviate any embarrassment. This will also involve the pupil being removed from the area affected in as timely and tactful manner as possible, without drawing undue attention.
- Registration teacher or Learning Co-ordinator will be informed as soon as possible by email or delivery of message by pupil using the protocols established in Appendix 5 "Safeguarding & Child Protection Policy"
- Home will be contacted and the situation explained. Their support in arranging for home transfer of their child will be sought
- In the event that home cannot be contacted or calls remain unanswered, the pupil will be offered some dry alternative clothing from the HE or PE department, (but no attempt will be made to remove any item of clothing).
- They will also be asked to change in private, while a member of staff maintains supervision outside the room. Suitable personal hygiene items of soap and towels (including sanitary) will be made available.
- Supervision of the pupil will be arranged through Registration teacher or Learning Co-ordinator until such time as Parents/ Guardians arrive.
- The normal "Leaving School " slip will be completed indicating time pupil

left in the care of their parent/guardian and the Intimate Care Pro-forma which will be forwarded to the Designated Teacher and securely filed.
